

SAWICKI LAW

WRONGFUL DEATH

Attorney Michael Sawicki has focused much of his practice on helping families after the death of a loved one. Over the years, he has represented victims of plane crashes, product failures, motor vehicle collisions, medical negligence and drunk drivers. One of his largest jury verdicts, for \$606 million dollars, involved the unnecessary death of an 82-year-old man who was overdosed by his doctor. Michael Sawicki represented the family and uncovered a broad history of negligence that led to the death.

Our experience handling serious injury and death claims has given us the ability to successfully litigate the claims and, sometimes even more importantly, understand the special needs - emotional and financial - that survivors often face. We work with teams of experts to develop our cases and understand just how difficult dealing with these issues can be for the people left behind. While no amount of money can bring back your loved one, your family need not suffer financial losses because of someone else's negligence. If you or a loved one has been affected by a wrongful death, contact us at the information below.

Remember: We don't get paid unless we win your case!
